Introduction *ix*

Section I: Understanding Assessment **1**

1. Making Formative Assessment Count	3
<i>Summative Assessment Versus Formative Assessment</i>	3
<i>A Closer Look at Formative Assessment</i>	4
<i>Teaching for Understanding</i>	6
<i>Save the Bubbles for Later</i>	9
<i>Resources</i>	10
2. Planning to Teach Well and Test Well	11
<i>Outlining Your Yearlong Plan for Teaching Math</i>	11
<i>Familiarizing Yourself with the Test</i>	15
<i>Incorporating Your Test Findings into Your Yearlong Plan</i>	18
<i>Preparing for Focused Test Preparation</i>	25
<i>Resources</i>	27

Section II: Teaching Computation with Alternative Algorithms **29**

3. Teaching and Testing Addition	31
<i>Types of Addition Problems</i>	36
<i>How Students Solve Addition Problems</i>	37
<i>Addition on Standardized Tests</i>	39

Contents

<i>Advantages to a Problem-Solving Approach to Addition</i>	44
<i>Resources: Place Value and Addition</i>	44
4. Teaching and Testing Subtraction	47
<i>Types of Subtraction Problems</i>	48
<i>How Students Solve Subtraction Problems</i>	49
<i>Subtraction on Standardized Tests</i>	52
<i>Advantages to a Problem-Solving Approach to Subtraction</i>	57
<i>Resources</i>	57
5. Teaching and Testing Multiplication	58
<i>Multiplication on Standardized Tests</i>	60
<i>Extending Multiplication</i>	67
<i>An Alternative Algorithm</i>	67
<i>Advantages to a Problem-Solving Approach to Multiplication</i>	71
<i>Resources</i>	72
6. Teaching and Testing Division	73
<i>Two Models of Division</i>	74
<i>Division on Standardized Tests</i>	75
<i>Extending Division</i>	81
<i>An Alternative Algorithm</i>	81
<i>Advantages to a Problem-Solving Approach to Division</i>	87
<i>Resources</i>	88
Section III: Developing an Environment for Success	89
7. Creating a Classroom Culture That Supports Good	
Thinking and Good Testing	91
<i>The Role of Effort and Persistence</i>	91
<i>The Belief That Students Can and Will Make Sense of Math</i>	93
<i>The Creation of an Environment That Encourages Risk Taking</i>	95
<i>Communication and Discussion</i>	96
<i>Partner Work and Cooperative Grouping</i>	100
<i>Mathematical Tools as Learning Supports</i>	101
<i>Final Note of Encouragement</i>	104
<i>Resources</i>	104

Contents

8. The Weeks Before and During the Test	105
<i>Dealing with Test Anxiety</i>	106
<i>Practicing for the Test</i>	107
<i>Test-Taking Strategies</i>	111
<i>Administering the Test in a Supportive Environment</i>	114
<i>Resources</i>	118
9. Communicating with Administrators and Parents	119
<i>Communicating with Administrators About Your</i> <i>Teaching and Test-Preparation Plans</i>	119
<i>Informing and Reassuring Parents About Your</i> <i>Math Program</i>	120
<i>Providing Information That Parents Need to Know</i>	122
<i>Resources</i>	123
<i>Afterword</i>	125
<i>Index</i>	127
