<b>Introduction</b>	7
<b>Working Mathematically</b>	7
<b>Computation</b>	8
<b>Principles of Mathematics Teaching</b>	10
<b>Working through a Syllabus</b>	12
Strategies for encouraging syllabus-related investigations	12
<b>Posing and Solving Problems</b>	
<b>Organising Problem Posing</b>	13
Posing problems for middle and upper primary students	13
<b>Posing Problems on Specific Mathematical Topics</b>	16
<b>Scaffolding Problem Writing</b>	18
<b>Sharing Students' Problems</b>	19
<b>Investigating</b>	
<b>The Investigation Process</b>	20
Beginning an investigation	20
The language students use to explain ideas	20
Writing a definition	21
Searching for patterns	22
Posing questions	22
<b>Group Work</b>	23
Establishing working groups	23
Bringing groups together	23

<b>Report Writing</b>	<b>24</b>
Note making	24
Making diagrams	26
Modelling report writing	26
<b>Reviewing an Investigation</b>	<b>28</b>
<b>Addition</b> 	
<b>Single-digit Addition Strategies</b>	<b>29</b>
<b>Addition Chains</b>	<b>33</b>
<b>Adding Two-digit Numbers</b>	<b>34</b>
Mental addition	34
Written addition	35
Spreadsheet addition	39
<b>Addition Practice through Investigations</b>	<b>40</b>
<b>Adding Larger Numbers</b>	<b>42</b>
<b>Adding Decimals</b>	<b>43</b>
<b>Triangular Numbers</b>	<b>44</b>
<b>Fibonacci Numbers</b>	<b>48</b>
<b>Pascal's Triangle</b>	<b>49</b>
<b>Multiplication</b> 	
<b>Investigating Sequences of Multiples</b>	<b>51</b>
Multiples of nine	51
Reducing numbers	55
Multiples of four	55
Multiples of five and twenty-five	58
Zero as a multiple	59
Multiples and angles	62
Multiples of eight	62
Common multiples	64

<b>Multiplication Strategies</b>	<b>66</b>
Doubling	66
Multiplying by single-digit numbers	67
The standard algorithm	69
Multiplying by eleven	71
Multiplying by numbers greater than eleven	74
Multiples of ninety-nine	78
<b>Square Numbers</b>	<b>79</b>
Square number problems	81
Square number investigations	84
<b>Rectangular Numbers</b>	<b>88</b>
Factors	89
Linking factors with square numbers	92
Linking factors with the binary sequence	94
Factors and angles	94
Introducing prime numbers	95
‘Maths Party’ activity	96
<b>Measuring Area and Volume</b>	<b>96</b>
<b>Cubic Numbers</b>	<b>97</b>
<b>Multiplying Decimals</b>	<b>100</b>
<b>Permutations and Factorials</b>	<b>101</b>
<b>Subtraction</b>	<b>101</b>
<b>Subtraction Contexts</b>	<b>105</b>
Finding differences	105
Taking away	106
<b>Single-digit Subtraction Strategies</b>	<b>106</b>
<b>Subtracting Larger Numbers</b>	<b>107</b>
Estimation	107
Mental subtraction	108
Written subtraction	110

<b>Subtraction Practice through Investigations</b>	<b>112</b>
<b>Negative Numbers</b>	<b>114</b>
<b>Subtracting Decimals</b>	<b>119</b>
<b>Pyramid Numbers</b>	<b>119</b>
<b>Division</b> 	
<b>Division Contexts</b>	<b>120</b>
Fractions	120
Quotition division	121
Partition division	121
Percentages	121
Multiplication tables	122
<b>Division Strategies</b>	<b>122</b>
Dividing by single-digit numbers	122
Making sense of division answers	126
Making sense of calculator answers to division	127
<b>Divisibility</b>	<b>129</b>
Divisibility by five and ten	129
Divisibility by other single-digit numbers	130
Divisibility by eleven	130
Divisibility by twelve	131
<b>Division with Decimals</b>	<b>132</b>
Linking fractions and decimals	133
Why do some decimals repeat infinitely?	136
<b>Percentages</b>	<b>138</b>
Percentage calculation devices	138
<b>Conclusion</b> 	<b>140</b>
<b>Posing Questions in View of the Mathematics Teaching Principles</b>	<b>144</b>
