Foreword by Sherry Parrish	xxi
Acknowledgments	xxiii
How to Use This Resource	xxv
 Video Clip: Introduction	xxv
What Is Math Workshop?	xxv
Why Math Workshop?	xxv
Why <i>This</i> Resource?	xxvi
How This Resource Is Organized	xxvi
How This Resource Is Meant to Be Read	xxix
Streaming Video Clips	xxx
Quick Start!	xxxix
But . . . Go Slow to Go Fast!	xxxix
Video Clips by Chapter	xxxii
Video Clips by Grade, Including Demographics	xxxv

Step I Understand Math Workshop 1

Chapter I Math Workshop: What, Why, and When?	3
What Is Math Workshop?	4
Seven Math Workshop Characteristics	4
 Video Clip: Introduction, Revisited	5
Three Math Workshop Structures	12
Why Math Workshop?	13
The Benefits of Differentiation	14
The Benefits of Small-Group Instruction	16
The Benefits of Student Choice	19

(continued)

The Benefits of Discourse	19
The Benefits of Continued Practice of the Big Ideas	21
When Does Math Workshop Happen?	22
Math Workshop: Voices from Experience	22
Voices from Experience: Teachers	23
Voices from Experience: Parents	23
Voices from Experience: Students	24
Voices from Experience: My Story	25
Connecting the Chapter to Your Practice	27

Step 2 Prepare Your Students for Math Workshop 29

Chapter 2 Twenty Days to a Classroom Culture That Works	31
The Three Buckets	33
Bucket 1: Classroom Arrangement	34
Bucket 2: Routines and Procedures	36
Bucket 3: Mathematics Community	39
Twenty Minilessons	46
An Overview of the Twenty Minilessons	47
Minilesson 1 (Day 1): Being an Active Listener	51
Minilesson 2 (Day 2): Making Connections	53
Minilesson 3 (Day 3): Talking About Your Thinking	55
▶ Video Clip 2.1: Talking About Your Thinking	57
Minilesson 4 (Day 4): Writing About Your Thinking	58
Minilesson 5 (Day 5): Using Your Strategies	60
▶ Video Clip 2.2: Working Strategies	62
Minilesson 6 (Day 6): Working Collaboratively	63
▶ Video Clip 2.3: Working Cooperatively	65
Minilesson 7 (Day 7): Working Independently	66
Minilesson 8 (Day 8): Using Math Tools	68
Minilesson 9 (Day 9): Using Manipulatives	70

▶ Video Clip 2.4: Using Manipulatives	71
Minilesson 10 (Day 10): Representing Your Thinking	72
Minilesson 11 (Day 11): Giving Your Best Effort	75
Minilesson 12 (Day 12): Transitioning Between Activities	77
Minilesson 13 (Day 13): Getting Started or Getting Unstuck	79
Minilesson 14 (Day 14): Asking Questions	81
Minilesson 15 (Day 15): Exploring Math in Many Ways	83
Minilesson 16 (Day 16): Checking Your Work	86
Minilesson 17 (Day 17): Using Math Vocabulary	88
Minilesson 18 (Day 18): Reflecting and Sharing	90
Minilesson 19 (Day 19): Understanding the Guidelines for Math Workshop	94
▶ Video Clip 2.5: Understanding the Guidelines for Math Workshop	94
Minilesson 20 (Day 20): Putting It All Together	95
Connecting the Chapter to Your Practice	97

Step 3 Decide Your Math Workshop Structure 99

Chapter 3 Task and Share Structure 103

▶ Video Clip 3.1: The Task and Share Structure in Action	104
What Is <i>Task and Share</i> ?	104
Why Use Task and Share?	105
When Should I Use Task and Share?	106
What Should I Keep in Mind When Selecting a Task?	110
What Does Task and Share Look Like in a Lesson?	112
Connecting the Chapter to Your Practice	119

▶ Video Clip 3.1: The Task and Share Structure in Action, Revisited	119
---	-----

Chapter 4 Focus Lesson, Guided Math, and Learning Stations Structure 120

▶ Video Clip 4.1: The Focus Lesson, Guided Math, and Learning Stations Structure in Action	121
What Is <i>Focus Lesson, Guided Math, and Learning Stations</i> ?	121

(continued)

Why Use Focus Lesson, Guided Math, and Learning Stations?	122
When Should I Use Focus Lesson, Guided Math, and Learning Stations?	122
What Should I Keep in Mind When Selecting a Focus Lesson?	123
What Does Focus Lesson, Guided Math, and Learning Stations Look Like in a Lesson?	125
Connecting the Chapter to Your Practice	130
▶ Video Clip 4.1: The Focus Lesson, Guided Math, and Learning Stations Structure in Action, Revisited	130
Chapter 5 Guided Math and Learning Stations Structure	131
▶ Video Clip 5.1: The Guided Math and Learning Stations Structure in Action	132
What Is <i>Guided Math and Learning Stations</i> ?	132
Why Use Guided Math and Learning Stations?	133
When Should I Use Guided Math and Learning Stations?	133
What Should I Keep in Mind When Forming Guided Math Groups?	134
What Does Guided Math and Learning Stations Look Like in a Lesson?	136
Connecting the Chapter to Your Practice	141
▶ Video Clip 5.1: The Guided Math and Learning Stations Structure in Action, Revisited	141
Step 4 Facilitate Your Math Workshop	143
<hr/>	
Chapter 6 Number Sense Routine	145
What Is a Number Sense Routine?	146
Why Use a Number Sense Routine?	146
When Should I Use a Number Sense Routine?	147
What Does a Number Sense Routine Look Like During Math Workshop?	147
Which One Doesn't Belong?	147
Number of the Day	150
Number Talk	151
▶ Video Clip 6.1: Number Sense Routine: Number Talk Using Quick Images	152
Count Around	152

▶ Video Clip 6.2: Number Sense Routine: Count Around	153
Finger Patterns	153
▶ Video Clip 6.3: Number Sense Routine: Finger Patterns	154
Building Numbers	155
Connecting the Chapter to Your Practice	156
Chapter 7 Learning Stations	157
▶ Video Clip 7.1: The Power of Learning Stations	159
What Are Learning Stations?	159
Why Use Learning Stations?	160
When Should I Use Learning Stations?	160
▶ Video Clip 7.2: Introducing an Activity for a Learning Station	161
What Should I Keep in Mind Before Learning Stations?	161
Step 1: Make Sure the Three Buckets Are “Full”	162
Step 2: Create Learning Stations	163
▶ Video Clip 7.3: Ms. Wallace’s Learning Stations	165
Step 3: Create Learning Station Groups	165
Step 4: Determine the System in Which Students Choose Their Learning Stations	165
Step 5: Determine How Students Move Through the Learning Stations	166
What Should I Keep in Mind During Learning Stations?	168
Learning Station Choice, Participation, and Behavior	168
Transition Time	169
▶ Video Clip 7.4: Transitioning to Learning Stations	170
What Should I Keep in Mind About Accountability in Learning Stations?	171
What Do Learning Stations Look Like During Math Workshop?	171
Math Menu: Dining Out	172
▶ Video Clip 7.5: Math Menu: Dining Out	173
Math Menu: List It	173
Math Menu: Must Do/Can Do	174
▶ Video Clip 7.6: Math Menu: Must Do/Can Do	175

(continued)

	Math Menu: Think–Tac–Toe	175
	Math Menu: Pocket Charts	177
	 Video Clip 7.7: Math Menu: Pocket Chart	178
	Connecting the Chapter to Your Practice	178
	 Video Clips 4.1 and 5.1, Revisited	179
Chapter 8	Guided Math	181
	 Video Clip 8.1: A Guided Math Group: What Is Symmetry?	183
	What Is Guided Math?	183
	Why Have Guided Math?	184
	When Should I Use Guided Math?	185
	Step 1: Establish Math Workshop Routines and Procedures	185
	Step 2: Pull Just One Guided Math Group	186
	Step 3: Pull More Than One Guided Math Group	186
	What Should I Keep in Mind When Forming Guided Math Groups?	188
	Readiness Grouping	189
	Heterogeneous Grouping	189
	Random Grouping	189
	What Should I Keep in Mind When Doing One–on–One Conferencing?	190
	What Does Guided Math Look Like During Math Workshop?	190
	 Video Clip 8.2: A Guided Math Group: Problem Solving	191
	Facilitating a Focus Lesson	191
	Problem Solving	192
	Reinforcing a New Learning Station	192
	Assessing Students	192
	Discussing Common Errors	192
	Providing Intervention	192
	Connecting the Chapter to Your Practice	195
	 Video Clips 4.1 and 5.1, Revisited	196
Chapter 9	Student Reflection	197
	What Is Student Reflection?	198

Why Use Student Reflection?	199
When Should I Use Student Reflection?	199
What Should I Keep In Mind During Student Reflection?	199
What Does Student Reflection Look Like During Math Workshop?	200
Math Share	201
▶ Video Clip 9.1: Student Reflection: Math Share	201
Journal Prompts	203
Turn and Talk	204
▶ Video Clip 9.2: Student Reflection: Turn and Talk	204
Get Moving	204
Exit Tickets	205
Four Corners	205
Connecting the Chapter to Your Practice	207
▶ Video Clips 3.1, 4.1, and 5.1, Revisited	207
Chapter 10 You're Ready, You're Set, Go!	208
Reviewing the Steps	209
Step 1: Understand Math Workshop	209
Step 2: Prepare Your Students for Math Workshop	209
Step 3: Decide Your Math Workshop Structure	210
Step 4: Facilitate Your Math Workshop	211
Your Getting Started Checklist	213
Go Slow to Go Fast!	214
▶ Video Clip 10.1: Go Slow to Go Fast!	214
Connecting the Chapter to Your Practice	216
Step 5 Reflect on and Refine Your Math Workshop	217
.....	
Chapter 11 Reflecting on Implementation	219
▶ Video Clip 10.1: Go Slow to Go Fast!, Revisited	220
Ways to Reflect as Educators	220
	<i>(continued)</i>

Reflect on the Data	220
Ask Yourself Reflective Questions	221
Chapter 12 Refining Your Practice—FAQs	224
▶ Video Clip 12.1: Overcoming Roadblocks	225
The Art of Refinement	225
I Believe in Math Workshop, But How Can I Do It This Year with Such a Challenging Group of Kids?	226
Why Does Math Workshop Seem Like a Lot More Work Than What I Was Doing Before?	226
What Happens When My Students Go to Middle School and Their Math Class Looks Entirely Different?	227
My Students Just Won't Talk About Math During Workshop. How Do I Get Them to Share Ideas?	227
The Math Workshop Structures in This Resource Are Created for a Sixty-Minute Math Class. What If I Have More Time? Less Time?	228
What If I Have One Student Who Needs Something Entirely Different from Everyone Else?	229
But What About the Tests?	229
A Final Note	229
References	231
