

REMAINDER OR NOT?

Get Ready!

2 players

Get Set!

- *Remainder or Not?* dividend and divisor cards
- 2 different coins

Go!

- 1 Place the divisor cards and dividend cards facedown in two stacks.
- 2 Each player selects a coin and places the coin on **START**.
- 3 Take turns. The first player chooses one card from each stack. The player finds the quotient.
- 4 If a problem has a remainder, the player moves one space. If there is no remainder, the player does not move.
- 5 The other player should check the quotient before play continues.
- 6 The first player to reach **FINISH** wins.
